# Florida Consortium on Postsecondary Education and Intellectual Disabilities

The University of South Florida St. Petersburg (USFSP) partnered with the University of North Florida (UNF) and Lynn University to form the Consortium on Postsecondary Education and Intellectual Disabilities to apply for this grant. The Consortium was notified on October 1, 2010 that it was one of 27 recipients of the U. S. Department of Education, Office of Postsecondary Education, Transition Programs for Students with Intellectual Disabilities into Higher Education (TPSID) grants. This Florida initiative is an outgrowth of the recommendations from the Governor's Commission on Disabilities, Education Sub-committee, and with support from the Florida Department of Education, Bureau of Exceptional Education and Student Services.

# New! UDL Online Module

Methods  
Materials  
Network-Based Goals  
Assessing Students  
**UDL**

Universal Design for Learning for Postsecondary Education (UDL)

is a new online module developed using UDL principles to teach postsecondary educators the concepts, strategies, and benefits of UDL. By using techniques described in this module, you will discover students who once struggled to learn become more engaged and leave with a deeper understanding of the course content.

Go to [www.ftpsid.info](http://www.ftpsid.info) for UDL module link.

## Annual Hartwick Symposium

- National experts and guest speakers!
- Sessions for students, mentors, parents, and educators!
- Planning for the future!
- Building strong mentoring programs!
- Collaborating with agencies!
- Choosing and using specialized resources!

# Florida Consortium on Postsecondary Education and Intellectual Disabilities

## Consortium Objectives

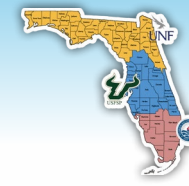

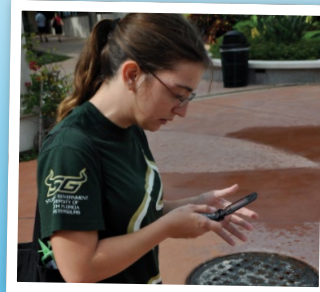

**Expand** existing transition programs at consortium campuses and fully align with criteria established for Comprehensive Transition Programs for Students with Intellectual Disabilities into Higher Education.

**Provide technical assistance to** other existing postsecondary transition programs to align them with the Comprehensive Transition Programs for Students with Intellectual Disabilities into Higher Education.

**Promote the development of** additional postsecondary transition programs for students with intellectual disabilities across Florida.

## Best Practices and Strategies

- High Expectations for ALL Students
- Annual Hartwick Symposium of Stakeholders
- Training and Technical Assistance
- Communication/Website with Shared Resources
- Relevant Products, including UDL Online Module and STAR Person-Centered Planning Model
- Mini-grants for Site Development
- Agency and Business Collaboration
- Braiding Resources
- Inclusive Settings
- Person Centered Planning
- Employment Outcomes and Internships

# Person-Centered Planning Model

Developed by the Florida Consortium on Postsecondary Education and Intellectual Disabilities and Florida Inclusion Network

## Student Goals in Postsecondary Education

- Social & academic inclusion with age-appropriate peers
- Community-Based work experiences
- Self-determination
- Integration into competitive employment
- Preparation for continued, lifelong learning and independent living

## Technical Assistance for Vocational-Technical Programs

The Florida Consortium on Postsecondary Education and Intellectual Disabilities and the Florida Developmental Disabilities Council, Inc. are collaborating to develop new programs for students seeking career and vocational training at state and community colleges. For information on available mini-grants for individual student supports and related technology, please contact us!
